Dandruff Soon Ruins The Hair

Girls-if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use rough to moisten the scalp and rub it in gently with the finger

By morning, most if not all, of your dandruff will be gone, and To Get Gennine Kellogg's Tastelethree or four more applications will completely dissolve and entirely destroy every single sign and

trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four stores is all you will need, no matounces is all you will need, no matter how much dandruff you have This simple remedy never fails.—
